ECODESIGN Declaration

KOZA K 7 room heater

K 7 room heater matches requirements of Commission Regulation (EU) 2015/1185 of 24 April 2015 implementing Directive 2009/125/EC of the European Parliament and of the Council with regard to ecodesign requirements for solid fuel local space heaters. Declaration has been prepared based on laboratory testing results in accordance with EN 13240:2008, listed in the test report no. 2/22-LG.

Laboratory testing results:

| Nominal Power Input [kW] | Efficiency [%] | Seasonal Space Heating Energy Efficiency [%] | Emission ²⁾ | | | |
|--------------------------------|-------------------|--|-------------------------|--------------------------------------|---------------|--------------------------|
| 5 | 70 | 60 | CO [mg/m ³] | NO _x [mg/m ³] | Pyłki [mg/m³] | OGC [mg/m ³] |
| | | | 1761 | 95 | 15 | 109 |
| Ecodesign Requirements | | ≥ 30 | ≤ 2000 | ≤ 200 | ≤ 50 | ≤ 120 |

¹⁾ K 7 room heater within the meaning of *Commission Regulation (EU) 2015/1185 of 24 April 2015 implementing Directive 2009/125/EC of the European Parliament and of the Council with regard to ecodesign requirements for solid fuel local space heaters is treated as a local space heater for solid fuel with an open combustion chamber due to the lack of tight separation of the furnace from the room in which the device is placed. The heater during its operation draws the combustion air directly from the room in which it is located.*

2) Value calculated at 13% O2
